

Jubaka

Safety data Sheet

(EU) 2015/830

Version 02

Section 1: Identification of Substance and Company

1.1. Product Identifiers

Product form: Mixture
Product name: Jubaka
Produktcode: SW10042

1.2. Relevant identified uses of the substance or mixture and uses advised against

1.2.1. Relevant identified use of the substance or mixture

Identified uses Concentrated aromatic raw material. Not for personal use in this form or concentration. For manufacturing use only.

1.2.2. Uses advised against

Uses other than those above

1.3. Details of the supplier of the safety data sheet

URI-Vape GmbH
Ehrsamer Weg 49
35398 Gießen
geschaeftsfuehrung@uri-vape.gmbh

1.4. emergency number

Emergency number 116117

Section 2: Hazards Identification

2.1. Classification of the substance or mixture

Classification according to Regulation (EC) No 1272/2008 (including amendments) Not Classified according to the rules of CLP

2.2. Label elements

Labelling according Regulation (EC) No 1272/2008 (CLP) Not Classified according to the rules of CLP.

2.3. Other hazards

Warning: Contains volatile flavouring chemicals; breathing these chemicals may lead to lung damage

2.4. Additional Information

The mixture was classified using data available for the neat substances with the application of relevant concentration limits, in accordance with regulation (EC) No 1272/2008

Section 3: CHEMICAL COMPOSITION / INFORMATION ON INGREDIENT

3.1. Substances

Not applicable

3.2. Mixture: Chemical Identification: Multicomponent mixture of aromatic raw materials

Chemical Identification: Multicomponent mixture of aromatic raw materials

Hazardous ingredients according to regulation (EC) No 1272/2008

Component	Classification	Concentration
N/A	N/A	N/A

Ingredients not listed are either classified as not hazardous or are present at concentrations below reportable levels

No REACH registration numbers are provided either because the mixture contains preregistered phase-in substances and the transition period for their registration according to Article 23 of REACH has not yet expired or because the annual tonnages do not require a REACH registration

Safety data Sheet

(EU) 2015/830

Version 02

Section 4: First Aid Measures

4.1. Description of first aid measures

General advice

Consult a physician if any symptoms persist. Show this safety data sheet to the doctor in attendance

Eye contact/Skin contact

Immediately flush eyes (holding eyelids apart) with plenty of water for at least 15 minutes. Consult a physician if symptoms persist.

Skin contact

Immediately flush skin with plenty of soap & water while removing contaminated clothing. Seek medical attention if irritation occurs

Ingestion

Do not induce vomiting. Never give anything to an unconscious person. Rinse mouth with water. Consult a physician or doctor if required

Inhalation

Remove from exposure site to fresh air and keep at rest. If breathing has stopped give artificial respiration. Observe for possible delayed reaction. Consult a physician if required
First Aider Pay attention to self protection

Self protection of the First Aider

4.2. Most important symptoms and effects both acute & delayed

The most important known symptoms and effects are described in the labelling (see section 2.2) and/or in section 1

4.3. Indication of any immediate medical attention and special treatment needed

No specific information is available. Treatment should be tailored to the effects note

Section 5: Fire Fighting Measures

5.1. Extinguishing media

Suitable extinguishing media

For small (incipient) fires, use media such as "alcohol foam", dry chemical, or carbon dioxide. For large fires, apply water from as far as possible. Use very large quantities of water applied as a mist or spray; solid streams of water may be ineffective. Cool all affected containers with flooding quantities of water

5.2. Special hazards arising from the substance or mixture

During a fire, irritating and toxic gases may be generated by thermal decomposition or combustion

5.3. Advice for firefighters

Wear self-contained breathing apparatus in pressure-demand, MSHA/NIOSH (approved or equivalent), and full protective gear.

5.4. Further Information

Use water spray to cool unopened containers

Section 6: Accidental release Measures

6.1. Personal precautions

6.1.1. For non-emergency personnel

Immediately establish a suitable distance in all directions as leak area. Only authorised personnel should enter the leak area, utilising appropriate personal protective equipment. Ensure adequate ventilation Prevent further leakage or spillage if safe to do so.

6.1.2. For emergency responders

Ensure adequate ventilation Wear positive4 pressure self-breathing apparatusFor details of protective equipment, See section 8
Remove from all sources of ignition Vapours can accumulate in low areas. Beware of vapour accumulation to form explosive concentration

6.2. Environmental precautions

Prevent further leakage or spillage if safe to do so. Do not let the product enter drains.

Jubaka

Safety data Sheet

(EU) 2015/830

Version 02

6.3. Methods and materials for containment and cleaning up

For Containment

Stop leakage if safe to do so. Keep in suitable, closed containers for disposal

For Cleaning up

Provide adequate ventilation. Avoid contact with skin and eyes. Do not ingest or inhale. Absorb spillage in inert material and shovel into chemical waste

6.4. Reference to other sections

For disposal see section 13

Section 7: Handling and Storage

7.1. Precautions for safe handling

Precautions for safe handling

Use appropriate personal protective equipment as specified. Avoid contact with skin and eyes. Avoid inhalation and ingestion. Avoid inhalation of vapour or mist. When using do not eat, drink or smoke. Wash hands thoroughly after using substance. For precautions see section 2.2

7.2. Conditions for safe storage, including any incompatible

Conditions for safe storage, including any incompatible

Store in well ventilated place. Keep container tightly closed, in a cool dry place. Keep away from heat, sources of ignition. Containers that are opened must be carefully resealed and kept upright to prevent leakage.

7.3. Specific end use(s)

Specific end use(s)

Apart from the uses mentioned in section 2.1 no other specific uses are stipulated

Section 8: Exposure controls/ Personal Protection

8.1. Control parameters

Occupational Exposure Limits

Contains no substances with occupational exposure limits

Biological Limit Value

No information available

PNEC's and DHEL's

No information available for this product

8.2. Exposure controls

8.2.1 Appropriate engineering controls

Avoid contact with skin, eyes and clothing. Wash hands before breaks and immediately after handling the product

8.2.2 Personal protective equipment

Eye/face protection

Face shield and safety glasses Use equipment for eye protection tested and approved under appropriate government standards such as NIOSH (US) or EN 166(EU).

Skin protection

Handle with gloves. Gloves must be inspected prior to use. Use proper glove removal technique (without touching glove's outer surface) to avoid skin contact with this product. Dispose of contaminated gloves after use in accordance with applicable laws and good laboratory practices. Wash and dry hands. The selected protective gloves have to satisfy the specifications of EU Directive 89/686/EEC and the standard EN 374 derived from it. Overalls and safety footwear are recommended. The type of protective equipment must be selected according to the concentration and amount of the dangerous substance at the specific workplace.

Respiratory protection

None required where adequate ventilation conditions exist. If airborne concentration is high, use an appropriate respirator or dust mask. EN149 as minimum standard

Hygiene measures

When using do not eat or drink, Smoking is strictly prohibited Take off contaminated clothing and wash before use Wash hands thoroughly after handling. Wash hands before breaks and at the end of work Handle in accordance with good industrial hygiene and safety practice

8.2.3 Control of environmental exposure

Prevent further leakage or spillage if safe to do so. Do not let the product enter drains

Jubaka

Safety data Sheet

(EU) 2015/830

Version 02

Section 9: Physical and chemical Properties

9.1. Information on basic physical and chemical properties

Appearance	Form: Mobile liquid Colour: Colourless to cream
Odour	Orange, Honeymelon, Cake
Odour Threshold	No data available
pH	No data available
Melting point/freezing point	No data available
Initial boiling point and No data available boiling range	No data available
Flash point	> 63°C – Closed cup
Evaporation rate	No data available
Flammability (solid, gas)	No data available
Upper/lower flammability or explosive limits	No data available
Vapour pressure	No data available
Vapour density	No data available
Relative density	1.0394 +/- 0.01 @
Water solubility	20°C Soluble
Partition coefficient: n-octanol/water	No data available
Auto-ignition temperature	No data available
Decomposition temperature	No data available
Viscosity	No data available
Explosive properties	No data available
Oxidizing properties	No data available

9.2. Other safety Information

No additional information relevant for safe use of this Substance

Section 10: Stability & Reactivity

10.1. Reactivity

No data available

10.2. Chemical stability

This product is stable under appropriate conditions of storage, handling and use

10.3. Possibility of hazardous reactions

No data available

10.4. Conditions to avoid

Heat, flames and sparks

10.5. Incompatible substances

Insoluble in water, Strong acids, acid chlorides, acid anhydrides, strong oxidizing agents

10.6. Hazardous Decomposition Products

No data available

Section 11: Toxicological Information

11.1. Information on toxicological effects

Acute Toxicity

No data available

Skin corrosion/irritation

No data available

Serious eye damage/eye irritation

No data available

Respiratory or skin sensitization

No data available

Germ cell mutagenicity

No data available

Carcinogenicity

IARC: No component of this product present at levels greater than or equal to 0.1% is identified as probable, possible or confirmed human carcinogen by IARC

Reproductive toxicity

No data available

Specific target organ toxicity – Single exposure

No data available

Specific target organ toxicity – Repeated exposure

No data available

Aspiration hazard

No data available

Ingestion may provoke the following symptoms; Epigastric pain, Nausea, Vomiting, Dizziness, Muscle weakness, Tachycardia, Cyanosis, Delirium, Convulsions, Renal damage, Oedema.

Jubaka

Safety data Sheet

(EU) 2015/830

Version 02

This preparation has not been subjected to toxicological testing as an entity but has been blended from materials with established toxicological bibliographies. In view of the difficulty of using current standard toxicological evaluation techniques to predict potential hazards to susceptible individuals or arising from unforeseeable potentiation, this preparation should be considered and handled as if it displayed health hazards and treated in consequence with all possible precaution.

Section 12: Ecological Information

12.1. Toxizität	No data available
12.2. Persistenz und Abbaubarkeit	No data available
12.3. Bioakkumulationspotenzial	No data available
12.4. Mobilität im Boden	No data available
12.5. Ergebnisse der PBT- und vPvB-Beurteilung	An assessment has not been conducted on this product
12.6. Andere schädliche Wirkungen	No data available

This preparation has not been subjected to ecotoxicological testing as an entity. In view of the difficulty of using current standard ecotoxicological evaluations techniques to predict the impact modes of release on vulnerable or localized parts of the ecosystem, this preparation should be considered and handled as if displayed potential environmental hazards, and treated in consequence with all possible precaution

Section 13: Disposal Considerations

13.1. Waste treatment methods:

Product: This combustible material may be burned in a chemical incinerator equipped with afterburner and scrubber but exert extra care in igniting as this material is flammable. Offer surplus and non-recyclable solutions to a licensed disposal company. Contact a licensed professional waste disposal service to dispose of this material

13.2. Contaminated packaging

Dispose of soiled containers in accordance with local/natural regulations

Section 14: Transport Information

14.1. UN number

ADR/RID: - IMDG: - IATA: -

14.2 UN proper shipping name

ADR/RID: Not dangerous goods

IMDG: Not dangerous goods

IATA: Not dangerous goods

14.3 Transport hazard class(es)

ADR/RID: - IMDG: - IATA: -

14.4 Packaging group

ADR/RID: - IMDG: - IATA: -

14.5 Environmental hazards

ADR/RID: no IMDG Marine pollutant: no IATA: no

14.6 Special precautions for user

No data available

Section 15: Regulatory Information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

EU regulations Authorisations: Not applicable
Restrictions on use: Not applicable

15.2 Chemical safety assessment

For this product a chemical safety assessment was not carried out

Section 16: Other Information

The information in this leaflet is to the best of our knowledge true and accurate but all data instructions, recommendations and / or suggestions are made without guarantee.

This product should be stored, handled and used in accordance with good industrial hygienic practices and in conformity with any legal regulation. The above information is based on the present state of our knowledge of the product at the time of publication. The user must satisfy himself that the product is entirely suitable for his purpose.
